Duplicate Client Issue

Good morning,

While reviewing the database, I noticed that is an active client for both LFCS and CCSOMO. It appears that this was possible because one of the accounts did not have the correct SSN entered into the new system.

The database does not show monthly forms have been filled out for this client for March or April. I will need both of you to provide me all service records for this client since February, as well as any documents she signed when she was admitted into the program.

Thanks,

Emily Kraft
